

Denco Sales eStore Tips & Tricks

Creating Shopping Lists

Creating Shopping Lists - Creating a shopping list will save time when ordering items you purchase most often. There are several ways to create a shopping list: from **Order History**; from the **Shopping Cart**; from the **Item Detail** screen.

Since **Order History** is a list of items you have purchased over the last 8 months, this is the easiest way to create a shopping list. Go to **Order History** and create an order/shopping cart of like items. In the shopping cart click the **Create Shopping List** button.
